

Lab 6 – Designing an Interactive Information Kiosk**Human Computer Interfacing****(BESE 14)**

Note: You are required to complete/demonstrate the assigned task **within the lab session**.

Using the controls that you have seen so far, design an Interactive Information Kiosk, to be installed at the entrance of Disneyland Parks (as discussed in the class).

- Assume that your designed screens would be available on Touch sensitive screens.
 - Design at least 4 to 5 screens.
 - Use of colors, graphics etc. is highly appreciated.
 - You may get help/ideas by visiting the Disneyland websites.
-
